DIV. OF OIL, GAS & MINING

Inspection Date: March 20, 2007  
Page 2 of 2  
M/043/017

The results of the GPS survey showed a total of 20.18 acres disturbed. Not all of the permitted area is disturbed, but there are small areas outside the permit area that have been disturbed. During the inspection, Mr. Worth recognized that he was close to the disturbance limit of his permit and discussed plans to add about 20 acres to his permit. It is recommended that a letter go to Mr. Worth requesting this amendment by May 30, 2007, and that his amendment includes all the current disturbed areas.

Continue to monitor this site when in the area.

Inspector's Signature

LK:pb

Attached: GPS Map of current disturbance.
